VERISMA® PATIENT FORMS COMPLETION

ACCELERATE FORM PROCESSING WITH PROVEN WORKFLOWS AND EXPERTISE

Timely completion of medical form requests is key to a positive patient experience, but the hours spent on this administrative work can prevent clinical staff from focusing on critical treatment tasks and outcomes. Verisma's team of health information management specialists take on the patient forms completion and distribution process with no disruption, reducing wait time for patients and improving staff productivity.

Verisma supports over 80 types of forms, including disability and FMLA. For many healthcare providers, Verisma patient forms completion is a cost-neutral service.

Partner with experienced professionals to enhance and manage forms processes and procedures

Gain back hours of clinical staff and provider time that can be spent focusing on patient care

Trust proven workflows and audit procedures to blend seamlessly with existing processes

**Ensure compliance timelines are being met and exceeded**

Leverage technology for automated patient communications and analytics

HOW IT WORKS

Patient Form Intake

Patient uploads documents to a forms processing portal that is accessed via the provider's website and matches their company brand.

Payment and Authorization

Authorization to release and payment details are collected through the portal. If desired, patient payments can go directly to Verisma, further reducing providers' administrative burden.

Form Completion & Quality Review

Verisma notifies patient that the form is received, completes the form, and submits for quality review.

Forms Delivered

Verisma uploads completed form to patient's chart, notifies patient, and distributes to authorized recipients.
