

VERISMA® PRIOR AUTHORIZATION

The Prior Authorization (PA) process is riddled with administrative complexities, leading to delays in patient care, uncertainty in clinical decisions, and a heavy burden of paperwork. Even the most efficient practices find it challenging to complete a growing number of prior authorizations while delivering the quality of care patients deserve.

Verisma replaces a time-consuming, manual process with expertise and efficiency that simplify PAs. Our workflows are customized for each provider and executed with speed and consistency:

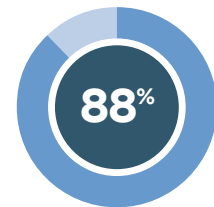

BENEFITS OF OUTSOURCED PRIOR AUTHORIZATION:

- **Administrative Efficiency:** Reduce staff hours to complete PAs and direct clinical teams back to patient care.
- **Timely Approvals:** Expertise ensures that PAs are obtained as quickly as possible, minimizing treatment delays and denials.
- **Patient Trust:** Preserve the patient-provider relationship with dedicated service, helping patients feel heard and valued.
- **Improved Patient Access:** With less “red tape,” patients are more likely to pursue recommended treatments.

WITH VERISMA, YOU CAN EXPECT:

- **Transparency:** We regularly report the work being done and the outcomes.
- **Expertise:** Verisma has a proven track record of successfully managing PAs with a high approval rate. We’re prepared to navigate shifting requirements.
- **Compliance:** Our staff stays updated on industry regulations to ensure PAs are fully compliant.
